

ChistaDATA Cloud Database-as-a-Service(DBaaS) for ClickHouse

ChistaDATA Cloud Infrastructure for ClickHouse is a Columnar Database Service built for performance, scalability and reliability which is operationally simple and cost-efficient. Cloud Infrastructure for ClickHouse is fully compatible with Standard ClickHouse Server so you can migrate existing applications and tools to run without requiring any sort of modifications. ChistaDATA Cloud Services team will assist you in Capacity Planning and Sizing so you can scale compute, memory and storage (SSD only) resources enabling your ClickHouse deployment up or down. The entire compute scaling operations can be completed in a few minutes. ChistaDATA Advanced Performance Diagnostics Toolkit for ClickHouse Server is enabled by machine learning (ML) to assist you in troubleshooting ClickHouse performance more intuitively by automatically identifying the root cause of performance issues and getting evidence-based recommendations to address the issues without needing help from ClickHouse experts

Why migrate to ChistaDATA Cloud Infrastructure for ClickHouse?

ChistaDATA Cloud Infrastructure for ClickHouse is fully compatible with standard ClickHouse addressing performance, scalability and database reliability engineering cost-efficiently. ChistaDATA Cloud Infrastructure combines the flexibility of open source ClickHouse with SLA of enterprise-grade ColumnStores:

- ClickHouse Installation and configuration
- ClickHouse Bug Fixing and Patching
- ClickHouse Infrastructure Capacity Planning and Sizing
- ClickHouse Infrastructure Operations Performance Optimization and Tuning
- ClickHouse Clustering and Replication Solutions
- Complimentary and 100% Free ClickHouse Migration Assistance
- ClickHouse DR (Data SRE) – Zero Data Loss Guarantee***
- ClickHouse Upgrades
- Data Security
- Monitoring (24*7) and Proactive Troubleshooting

👉 Basic ClickHouse Server Nodes (Shared)

Node Plan	Node Specification
US \$15/Month	1 GB RAM / 1 Intel CPU / 25 GB NVMe SSDs / 1000 GB Transfer
US \$30/Month	2 GB RAM / 1 Intel CPU / 50 GB NVMe SSDs / 2 TB Transfer
US \$45/Month	2 GB RAM / 2 Intel CPU / 60 GB NVMe SSDs / 3 TB Transfer
US \$75/Month	4 GB RAM / 2 Intel CPU / 80 GB NVMe SSDs / 4 TB Transfer
US \$110/Month	8 GB RAM / 4 Intel CPU / 160 GB NVMe SSDs / 5 TB Transfer
US \$960/Month	16 GB RAM / 8 Intel CPU / 320 GB NVMe SSDs / 6 TB Transfer

👉 General Purpose ClickHouse Server Node Plans(Dedicated and Secured)

Node Plan	Node Specification
US \$130/Month	8 GB RAM / 2 CPUs / 25 GB SSDs / 4 TB Transfer
US \$250/Month	16 GB RAM / 4 CPUs / 50 GB SSDs / 5 TB Transfer
US \$480/Month	32 GB RAM / 8 CPUs / 100 GB SSDs / 6 TB Transfer
US \$960/Month	64 GB RAM / 16 CPUs / 200 GB SSDs / 7 TB Transfer
US \$2,000/Month	128 GB RAM / 32 CPUs / 400 GB SSDs / 8 TB Transfer
US \$3,000/Month	160 GB RAM / 40 CPUs / 500 GB SSDs / 9 TB Transfer

👉 CPU Optimized ClickHouse Server Node Plans(Dedicated and Secured)

Node Plan	Node Specification
US \$90/Month	4 GB RAM / 2 CPUs / 25 GB SSDs / 4 TB Transfer
US \$160/Month	8 GB RAM / 4 CPUs / 50 GB SSDs / 5 TB Transfer
US \$350/Month	16 GB RAM / 8 CPUs / 100 GB SSDs / 6 TB Transfer
US \$700/Month	32 GB RAM / 16 CPUs / 200 GB SSDs / 7 TB Transfer
US \$1,500/Month	64 GB RAM / 32 CPUs / 400 GB SSDs / 9 TB Transfer

☛ Memory Optimised ClickHouse Server Node Plans(Dedicated and Secured)

Node Plan	Node Specification
US \$200/Month	16 GB RAM / 2 CPUs / 50 GB SSDs / 4 TB Transfer
US \$350/Month	32 GB RAM / 4 CPUs / 100 GB SSDs / 6 TB Transfer
US \$700/Month	64 GB RAM / 8 CPUs / 200 GB SSDs / 7 TB Transfer
US \$1,500/Month	128 GB RAM / 16 CPUs / 400 GB SSDs / 8 TB Transfer
US \$2,400/Month	192 GB RAM / 24 CPUs / 600 GB SSDs / 9 TB Transfer
US \$4,950/Month	256 GB RAM / 32 CPUs / 800 GB SSDs / 10 TB Transfer

☛ Storage Optimised ClickHouse Server Node Plans(Dedicated and Secured)

Node Plan	Node Specification
US \$300/Month	16 GB RAM / 2 CPUs / 300 GB NVMe SSDs / 4 TB Transfer
US \$600/Month	32 GB RAM / 4 CPUs / 600 GB NVMe SSDs / 6 TB Transfer
US \$1,200/Month	64 GB RAM / 8 CPUs / 1.17 TB NVMe SSDs / 7 TB Transfer
US \$2,500/Month	128 GB RAM / 16 CPUs / 2.34 TB NVMe SSDs / 8 TB Transfer
US \$2,400/Month	192 GB RAM / 24 CPUs / 3.52 TB NVMe SSDs / 9 TB Transfer
US \$4,950/Month	256 GB RAM / 32 CPUs / 4.69 TB NVMe SSDs / 10 TB Transfer
